📍 Ponce (Puerto Rico)

Greetings, I'm Pablo Luciano, a Full-Stack Software Engineer and multidisciplinary designer. With over 10 years of experience in graphic and digital design, and more than 2 years in web development, I bring a creative and technical approach to every project.

I hold a bachelor's degree in electrical engineering with a concentration in Computers and an associate degree in Computer Programming. My expertise spans branding, UI/UX, and end-to-end web application development, where I've led and collaborated on several successful projects.

I'm passionate about technology, design, and continuous learning always seeking to refine my skills and stay ahead of emerging trends in the tech and creative industries.

Work Experience

Full Stack Software Engineer

Profesional Services

01/2023 to Present

- Planned, coded and deployed web-based applications using PHP, MySQL and JavaScript.
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.
- Promoted brand identity by creating company logos and delivering attractive, user-friendly and unique website.
- Reviewed code, debugged problems, and corrected issues.
- Completed full redesigns of existing websites to improve navigation, enhance visuals and strengthen search engine rankings.

Technical Engagement Support

Acumenian LLC.

06/2021 to 12/2022

- Document the entire PV systems validation process, noting changes or alterations completed.
- Create spreadsheets using Microsoft Excel for daily, weekly, and monthly reporting.
- Examine blueprints, technical documentation, and customer facilities to determine appropriate locations for installations.
- Collaborate with team members to achieve target results.

Graphic Designer

PrintPlus Corp

09/2013 to 05/2021

- Designed templates, and unique branded looks.
- Developed creative designs for print materials, banners, and signs.
- Developed display, marketing, and packaging materials to support product branding strategies.
- Created digital image files for use in digital and traditional printing methods.
- Produced high-quality brochures, flyers, four-color artwork, and mailers.
- Analyzed daily density readings from each printer to detect potential quality issues.
- Operated press to achieve the highest print quality and productivity with minimal scrap.
- Resolved problems, improved operations, and provided exceptional service.

IT Assistant

JR Technology Consulting Service

05/2019 to 08/2019

- Maintained current software licenses and patched applications to stay up to date with the latest features.
- Installed and configured software and hardware.
- Removed malware, ransomware, and other threats from laptops and desktop systems.
- Configured hardware, devices, and software to set up workstations for employees.
